Landhotel Am Zault, Düsseldorf

Brintons

The 4-star Landhotel Am Zault is a family-run hotel set in beautiful parkland on the outskirts of Düsseldorf. The property has 59 beautifully appointed rooms, which provide elegant accommodation in a traditional setting.

Jordan Interior Design in Bochum was chosen to lead the refurbishment of the guest rooms by the owners of the hotel Constanze Weber-Feldmann and Reinhard Feldmann.

Brintons worked closely with Britt Jordan of Jordan Interior Design to develop carpets for the hotel guest rooms. The design brief was to create a floral design, which complimented the chosen fabrics and furniture.

Using the extensive Brintons online design archive on DSO (Design Studio Online) Britt was able to develop a design from the Stacy Garcia Nuance collection, which was then re-dimensioned as required with the support of Brintons Field Designer Sabijn den Braber. The design was also recoloured in a natural green hue to give the concept of bringing the outside of the hotel into the interior space.

The hotel owners were delighted with the results.
