# EARTH DAY

Meeting our needs today without depleting the world's resources for tomorrow, Brintons is committed to operating in socially and environmentally responsible ways. Our wool rich products offer a sustainable flooring choice. We actively work to improve our environmental performance across our operations worldwide. In honor of Earth Day and our beautiful planet, we've carefully crafted and curated the below custom designs to reflect many of our treasured National Parks. Celebrate with us!

Visit National Park Foundation to get inspired by a virtual visit to one of the above locations or learn more on supporting our Earth's spectacular natural wonders. We were inspired by the following National Parks across the United States:

- Great Sand Dunes National Park, Colorado
- Olympic National Park, Washington
- Petrified Forest National Park, Arizona
- Glacier National Park, Montana
- Grand Canyon National Park, Arizona
- White Sands National Park, New Mexico
- Rocky Mountain National Park, Colorado
- Redwood National Park, California
- Everglades National Park, Florida
- Lake Clark National Park, Alaska
