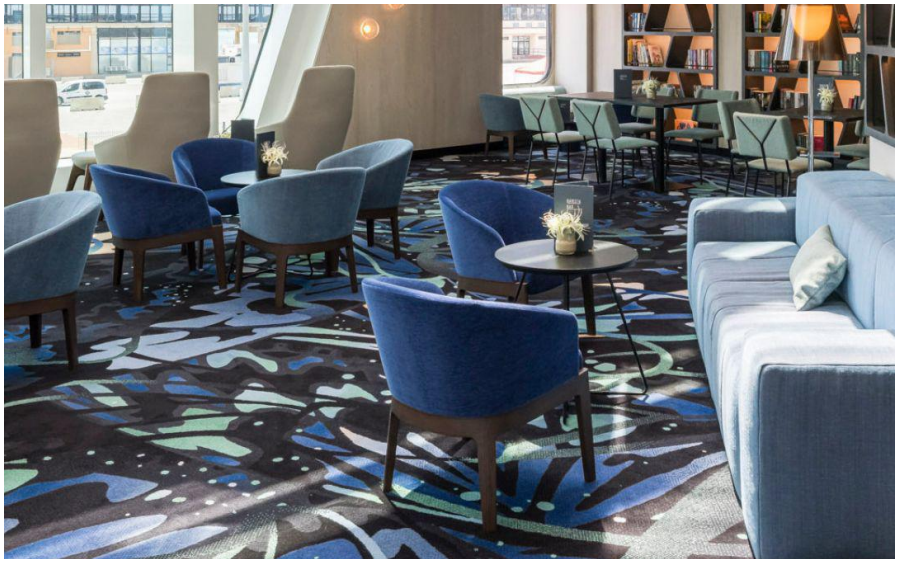
TUI Cruises Mein Schiff RELAX

Brintons



The TUI Cruises Mein Schiff RELAX was the first in a new class for the cruise line, debuting in Spring 2025, and built with energy efficiency in mind. Brintons worked with Royal Caribbean Group to supply approximately 22,500 m2 of custom 80/20 Axminster carpet for the public areas, stairs & elevator lobbies.

> Working on this TUI Cruises ship for clients across USA and Europe was an incredibly rewarding experience.
>
> The challenge of blending aesthetics and preferences into a cohesive and functional design was truly inspiring. It required a balance of creativity and practicality, ensuring the designs resonated with an international audience while also reflecting the spirit of the Mein Schiff brand
>
> The organic elements in the designs added a unique touch allowing the spaces to feel fluid, natural and inviting, creating an environment that was both luxurious and comfortable. The process of bringing these designs to life was a great blend of artistic freedom and collaboration with the amazing team.
