Highways Hotel, Melbourne Racing Club

Brintons

Brintons worked closely with Round 6 Architects and the team at Melbourne Racing Club Investments to deliver a stunning woven Axminster flooring solution for the Highways Hotel, Victoria, Australia.

Brintons designers, together with Round 6, developed a bespoke, large scale floral pattern for the floors of Highways' gaming room, bistro and foyer areas. The colour palette is vibrant. The floral design creates a sense of drama and occasion. Texture has been cleverly woven into the patterning to add depth and interest, whilst improving the practicality of the design.

Extremely comfortable underfoot, the woven carpet stands up to the heaviest of traffic, whilst enhancing the ambience and atmosphere of the hotel.

Project summary
