

Brintons create and manufacture woven Axminster and Wilton carpets for the worlds leading interior designers and architects. Our highly creative designers situated in Australia and other key cities around the world, achieve innovative solutions for maximum impact.

# the designers eye

Tattersalls commissioned TM Design Group. Their brief for 'The Club' was to create an interior scheme with a new contemporary feel, while maintaining a link to the natural history of the Caroline Springs area.

In collaboration with TM Design Group, Brintons Melbourne designer Michelle Simin created a series of custom carpet designs to perfectly complement key interior elements and define various spaces within 'The Club'. Neutral tones of carpet creating a sense of balance & unity, harmonizing the striking graphic impact with flowing organic abstract patterns.
