🕒 FIRST WEAWE

Brintons has announced an inspired collaboration with the Scottish design duo, Timorous Beasts. The exhibition of Brintons' designs will take place in Milan during the International Furniture Fair from 18-23 April. Timorous Beasts is one of the UK's leading textile design firms. First Weave marks the beginning of the collaboration. It is a collection of carpet designs which play with the notion of pattern in the interior space so that it becomes a dramatic feature in its own right. The nine First Weave designs are suitable for the hospitality industry, cruise ships and high-end boutiques. **CIRCLE 164**
