

Brintons "First Weave"

Brintons have recently collaborated with Scottish design duo, Timorous Beasties. One of the UK's leading textile design firms, Timorous Beasties are known for making innovative leaps in transforming interior landscapes with their surreal and provocative designs.

Timorous Beasties / Brintons

First Weave is a collection of designs which play with the notion of pattern in the interior space so that it becomes a dramatic feature in its own right. The First Weave has been divided into nine individual stories: Iguana, Vintage Damask, Thistle, Leaves, Bristol Daisy, Tudor Rose Wood, Devine Moth, Branch Out and

Wood Grain. Each name alludes to the concept behind their original creation. The designs are being aimed at the hospitality industry, high-end boutiques and cruise ships. Timorous Beasties by Brintons designs are intended to be high quality 80% wool 20% nylon woven axminster and suitable for heavy

commercial use. In comfort and appearance terms, there is nothing to match a high quality woven axminster carpet. The axminster weaving method also ensures excellent dimensional stability, which is crucial in heavy traffic areas such as around bars and doorways. Brintons, 01562 635665 HI:113
