

TIMOROUS BEASTIES by

Brintons

custom woven axminster & handcrafted carpets

Welcome to "Timorous Beasties by Brintons", the inspired result of a design collaboration between Brintons, the world's leading woven Axminster manufacturer and Timorous Beasties, the adventurous Scottish design duo.

Timorous Beasties are a leading UK textile design firm whose provocative design style transforms interior landscapes and challenges the norm. The patterns become a dramatic feature in their own right. Each design is created as a custom option and can be re-colored and re-scaled to fit your project criteria.

Brintons is the leader in design and style. We not only partner with our customers but also collaborate with leading design groups to create the ultimate interior.

Join us at booth 3424 HD 2007!
