

# Brintons

**Project:** 600 N Lake Shore Drive

**Details:** 7,000+ Sq Yd

Brintons partnered with Harken Interiors for the renovation of 600 N. Lake Shore Drive.

During the design sessions with the community, the Brintons and Harken Interiors teams molded ideas into one that truly represents the beauty of Chicago and the property itself: Convergence of City and Shore.

Giving a freshly updated and timeless result, the Brintons carpet designs create a delicate balance of organic patterning, soft geometric overlays, and a color palette that is inspired by both nature and the reflections of the glass city skyscrapers.

"The Brintons team was especially helpful in coordinating logistics and building trust with the client. We often say we are only as good as our manufacturing partners, and it is a joy when those partners meet and exceed our expectations in process, final product, and communication."
