

Brintons

Project: Animae San Diego
Details: 615 SY Axminster

Partnering with Bells + Whistles, Brintons produced 615 SY square yards of custom carpets for San Diego's Animae Restaurant. Inspired by an ancient remote forest on Japan's Yakushima Island, a bespoke Brinton's wool carpet stretching the length of the room mimics the sun-kissed forest floor.

"We were extremely impressed by the customer service team we worked with at Brintons for our custom carpet at Animae. The process of designing and fabricating the 100+ foot long custom, curving carpet felt painless. Brinton's allowed us to focus on the design, while they seamlessly worked through the logistics behind the scenes."
