

# Brintons

**Name:** River Landing at

Sandy Ridge

**Details:** Axminster: 14,000 SY

**Date:** 2018

**Photography:**

ID Collaborative

Tasked with the transformation of North Carolina's River Landing at Sandy Ridge, ID Collaborative called upon Brintons to design and manufacture 14,000 square yards of custom Axminster.

"Brintons was truly a team player with us on this project. They diligently worked with us through several iterations to make sure the scale of our corridor carpet was perfect, even going so far as to let us purchase a small amount of the corridor carpet and install it in one corridor as a mock-up for client approval prior to placing the overall order."
