

Brintons

Name: The Westin St. Francis

Details: Axminster: 9,500 SY

Date: 2016

Photography: The Westin St. Francis

Brintons and Whitespace Interiors collaborated on 9,500 square yards of custom axminster carpet for the reinvented Westin St. Francis.

"Updating a Grande Dame like the Westin St. Francis can be complicated and a thoughtful approach to renovating this iconic hotel was crucial. Whitespace worked closely with Brintons' to create modern & dynamic patterns that respect the hotel's historic origins. Brintons' design team was an amazingly valuable asset in managing this unique set of conditions. The final outcome was a magnificent installation and an elated client."
