The Bristol Hotel, a luxurious boutique hotel by The Doyle Collection commissioned Brintons to supply axminster woven carpets for its River Lounge and Bar and front lobby.

harbourside luxury

Situated on the harbour, The Bristol Hotel enjoys an unbeatable waterfront location in the heart of one of the UK's most exciting cities and offers luxury accommodation, a restaurant and cocktail bar in the thriving creative quarter in Bristol, making it the perfect place to explore the city.

Looking to inject glamour into the spaces, the hotel chose carpets from Brintons Quickweave series, which offers semi-bespoke woven axminster carpet ideal for smaller spaces and for projects that require a quicker turnaround than fully bespoke designs.

> The distressed chequerboard design brings a sense of faded glamour to the cocktail bar it sits within and the exuberant palm leaf design in the lobby runner refers to the tropical Miami deco period and adds energy to the space. Both carpets anchor the overall design scheme and give the Bristol a distinct sense of style and glamour

With 1000s of production ready designs to choose from, Quickweave patterns can be recoloured from a choice of six palettes and delivery within as little as six weeks.

Brintons award-winning design team developed the Quickweave series to reflect today's trends with contemporary patterns, complementing transitional styles such as plaids, stripes and abstract design themes. Clever texturing

techniques including mottles and strifes have been used within the patterns to give depth while offering practical application for a variety of interiors.

Project summary
