About Us

At the heart of our 200 year old brand is a genuine enthusiasm and pride for what we do.

From palaces to hotels, restaurants to public buildings, cruise ships to airports, over the years Brintons carpets have contributed to make the worlds' most beautiful interiors.

We stay true to our core values, offering our customers an outstanding experience through exceptional products and a fantastic service.

People who understand the importance of lasting value choose Brintons.

Inviting designs certified for cruise ships, super yachts, ferries and riverboat casinos

Carpet exudes a feeling of luxury and comfort and the colour and design elements of Axminster carpet set the mood. No other carpet lends itself to multi-coloured and large-scale design like an Axminster.

Brintons is the worlds largest supplier of woven Axminster carpets with an extensive network of manufacturing plants and design offices throughout the world.

Brintons has an excellent track record with the worlds largest ship owners, shipyards and marine designers. Brintons specialist marine division has supplied carpet to more than 500 vessels, for use in public areas, cabins and corridors.

At every stage of a marine project, Brintons will call on its market leading experience and understanding to deliver the best possible result. There are no compromises.

From planning and design through to installation and post-project support, Brintons delivers the highest level of customer service wherever you are in the world.

Design

One of the many key areas in which Brintons excels is design thanks to a talented global team of designers. Carpet is one of the best mediums for making a strong interior design statement. By using breathtaking large repeats, delicate patterns and strong colours, it is possible to create a unique atmosphere that is unequalled by any other flooring product.

Product

Brintons supplies a combination of stock and custom products – enabling us to handle the largest projects and supply to the tightest deadlines.

Brintons has more than 300 different stocked range designs readily available with full marine certification, choose from different styles, colour combinations, patterns and textures.

Carpet is consistently the most versatile flooring choice when shaping a commercial interior and a Brintons woven carpet offers real, tangible benefits:

- Improved safety
- Improved indoor air quality
- Enhanced comfort underfoot
- Reduced noise pollution
- Ease of cleaning and maintenance support
- No delamination of backing
- Excellent appearance retention
- No snagging or zippering

Designed to perform at sea

Brintons offers stock and custom solutions with full marine certification for cruise ships, ferries, casino riverboats and other offshore installations. Our products are proven in the most demanding situations around the world:

- Meeting stringent flammability and fire code standards
- IMO (International Maritime Organization) accreditation
- SOLAS (Safety of Life At Sea)
- ISO 9000 Quality System registered
- US Coast Guard requirements

All marine products are supplied with Wheelmark certification, which shows that the carpet conforms with the IMO (International Maritime Organisation) and SOLAS (Safety Of Life At Sea) requirements for spread of flame and smoke/toxicity.

The Wheelmark is also accepted by the United States Coastguard and the USCG approval numbers are printed on the carpet packs when delivered.

Harmonising the environment

Brintons employs a strict environmental policy. It manufactures carpet using renewable resources, with extended life cycles, in plants that are continually striving to reduce their environmental footprint and employs people that are well cared for and environmentally aware.

Brintons woven Axminster carpets make significant contribution to improving indoor living standards, as they conserve energy and are environmentally friendly. The superior quality of our carpets provides long-term waste reductions, benefits naturally associated with extended product lifecycles. In addition, Brintons Axminster carpets may also contribute to LEED Certification in two categories: Rapidly Renewable Materials and Low Emitting Materials.
