

Brintons

Name: Copthorne Kings Hotel,
Singapore
Details: 4km² axminster carpets
Client: Millennium Hotels & Resorts

Brintons is proud to partner Millennium Hotels and Arista Interior Decor in the thoughtful refurbishment of Singapore's Copthorne Kings Hotel.

The new rooms are inspired by the aesthetic of modern Chinoiserie chic, incorporating a subtle fusion of contemporary east and west design elements. A soft, restorative palette of neutral grey tones for the carpets grounds the space. The eye is drawn to delicate decorative design details woven in highlights of gold and blue.

"The work by Brintons was professionally executed for our renovation project. The collaboration was seamless from tender; design, strike off, delivery and installation within the planned schedule. The hotel is happy with the end product."

Mr Kung Teong Wah
