

Brintons

Name: Crystal Symphony
Details: Axminster: 3,000 SY
Date: 2017

Brintons collaborated with AD Associates to create approximately 3,000 square yards of custom axminster carpets for the award-winning Crystal Symphony.

Officially titled the Evolution of Luxury, the ship's refurbishment incorporates new dining and open seating concepts, while decreasing the overall capacity allowing for more space and a sense of heightened comfort for guests. Tasked with the redesign, London based design firm, AD Associates cleverly employed bold geometric designs to update the space and harmonize with the existing interior architecture.

The striking high-contrast carpets reach out and lure guests into a dynamically designed room.
