Brintons collaborated with CHIL Interior Design on approximately 5,900 square yards of custom Axminster carpets for the Fairmont Hotel Vancouver.

"We often begin by looking at the carpet design in the beginning to set the tone especially for this project where we knew that creating the right look was so crucial. Brintons is always our go-to because they provide such a vast array of designs as well as great service. They are always so responsive and helped create the right level of luxury and design we were striving for."
