

Brintons

Project: Four Seasons
One Dalton Street Boston

Details: 18,000 SY Wilton

Brintons partnered with Bill Rooney Studio to design and manufacture 18,000 square yards of custom woven woolen Wilton for the guest rooms at the brand new Four Seasons One Dalton Boston.

"Working with Brintons on the Four Seasons One Dalton Boston property was a breeze.

Getting a design interpreted correctly, sampled and approved can be a lengthy process, but Brintons' expertise allows them to facilitate some of the shortest approval and sampling times I've seen in the industry. They seem to just get it right."
