

Brintons

Name: Grand Hyatt Buckhead

Details: Axminster: 1,500 SY

Date: 2004

Specified by Design ONE Studio, Brintons designed a number of hand tufted and axminster rugs for the redesigned Grand Hyatt Buckhead in Atlanta, GA.

"The concept for this heavily used multifaceted space was to bring wonderful "works of art" to the space to soften the architectural envelope. The rugs needed to be a feature element to enjoy but not be demanding the guests attention. The designs are wonderful in the intricate detail found in the pattern, and color as well as the beautiful subtle textures. Brintons was eloquent in finessing and translating the details to make these rugs absolutely stunning."
