Dubrovnik's Hilton hotel is situated just a short distance from the old town, a UNESCO World Heritage Site. The hotel was originally built in 1895 and is a renowned base for both business and leisure travellers. Recent refurbishment at the Hilton Dubrovnik focussed on the Lobby Bar.

The hotels General Manager asked the Brintons design team to work with Hilton on developing a new custom carpet design to complement the elegant design of the property.

> We are very satisfied with the new carpet, which blended very nice into an already existing ambience
