

Humble House Taipei is located in Xinyi District of Taipei, a convenient geographic location with business and shopping areas nearby. Designed by Hirsch Bedner Associates Pte. Ltd (HBA), the hotel presents a simple and relaxed style, featuring the theme of a city garden which gives it an elegant and sophisticated atmosphere.

The hotel has maintained exclusivity by introducing art, culture and living in a new style. Contemporary works of art from international artists are found aesthetically placed throughout the property. It is a quiet, peaceful getaway amidst the urban clamour of Taipei.

Brintons Axminster carpets were used through out the property, in the guestrooms, corridors, ballroom, prefuction area and also the premier suites. Sarbajit Guha and Tukaram Kattiman, designers from Brintons, worked on the concept of designing something unique and contemporary.

The installation of carpets was completed in February 2014.

Brintons has again supplied quality carpets for hotels of My Humble House Group. The team conducted itself very professionally from the designing and artwork confirmation stage. We have always had high expectations from Brintons. The carpets were a sound investment for us.

Senior Project Director

My Humble House Group, Humble House Taipei
