Brintons worked with hospitality interior design consultants Hirsch Bedner and Associates to produce a spectacular collection of woven axminster carpets for the public areas at the InterContinental Wuxi. The final result is a showcase of stunning designs, in dramatic colours, which creates an atmosphere that is unique and mesmerising.

Hirsch Bender and Associates principal interior designer, Alicia Loo, provided an exciting opportunity to the Brintons design team. Brintons were given creative license to deliver a series of design options, within a dramatic colour palette, that reflected a mix of traditional and contemporary styling for the ballroom, prefunction, lobby and dining spaces.

Project summary

Name	InterContinental Wuxi
Details	5,600 sqm 9 row woven Axminster
Date	...
