Brintons worked with SOSH NY to develop approximately 4,800 square yards of custom axminster carpets for the gaming floor at Jake's 58 Hotel & Casino, operated by Delaware North.

"We worked very closely to Brintons to scale the carpets to fit the casino floor appropriately. Brintons submitted full scale axminster samples to our design team allowing us to successfully envision the carpet within the interior. The generous scale of the carpet paired with the whimsical colorful striations have become a standout feature within Jake's 58 Casino & Hotel."
