Brintons pair with Simeone Deary Design Group to create 5,800 square yards of custom axminster carpets for the reimagined Kimpton Hotel Allegro.

"Designing the carpet for the Hotel Allegro with Brintons was a collaborative process. It felt like a partnership because they shared the same passion as our design team and they understood the impact the carpet would have in the overall space. They were meticulous with all the fine details and because of their extensive knowledge of carpet construction and design software, they helped guide us in translating painted works of art into beautiful carpet."
