

Brintons

Name: The Ritz-Carlton,
Phoenix
Details: Axminster: 3,600 SY
Date: 2012

Brintons, commissioned by Monogram at BBGM, created 3,600 square yards of axminster carpets using the High Definition Weave technology.

"Derived from the motion of a desert vortex spiraling against the purity of Arizona's desert blue sky, the design for the Ritz Carlton Phoenix Ballroom captures the dynamic nature of its local setting. In collaboration with Brintons' talented team, we were able to seamlessly go from concept to creation, crafting a custom carpet that responds to the refined taste of even the most discerning Ritz Carlton guest."

Julia Monk
