

Brintons

Name: San Diego Civic Theatre

Details: Axminster: 5,000 SY

Date: 2012

Brintons, in collaboration with JMVon Graven created 5,000 square yards of axminster carpets inspired by malachite stone for the San Diego Civic Theatre.

"We were fortunate to have the combination of this custom carpet design, the carpet material and workmanship, and its installation. It exceeded our expectations and generated rave reviews from our users and patrons. With over 300,000 individuals attending performances each year, we needed a carpet that looks good, will hold up, and adds to the appearance of our theatre."

Don Telford
President + CEO
