Brintons collaborate with Montgomery Roth for the lobby, ballrooms, pre-function and meeting spaces at the Sheraton New Orleans.

"The vision for the Sheraton New Orleans public space carpet was to preserve the sense of history that belongs to the property, while breathing new life into the interior. Brintons' designers translated my napkin sketches into dynamic and dramatic patterns; altering the scale of iconic shapes and infusing them with color and texture. The end result is a collection of patterns that effectively tie historic elements to a transitional updated aesthetic!"
